

WHY IMPROV?

Creativity drives ideas. Ideas drive business. Improvisational theater is the art of turning ideas into action. A group of performers takes the stage with nothing prepared in advance, and must work together to create instant comedy and compelling theater. Improvisation requires focused teamwork, unhindered creativity, and a risk-taking mentality.

Using the same tools as the improvisational actor, you can learn how to tap into this creativity to create a vibrant environment of ideas and supportive teamwork. Your employees would benefit from increased confidence, heightened communication and leadership skills.

All of our workshops are interactive, engaging, and hands-on.

PARTICIPANTS WILL LEARN TO:

- Take Action despite the fear of failure
- Trust themselves & Co-workers
- Apply Creativity for brainstorming & problem solving
- Listen Effectively to team members and clients
- Control Their Focus stay positive & productive
- Work with Others create win-win situations
- Act Fast and respond to situations at hand
- Lead with confidence
